PERSONAL SUMMARY

3+ years of Information Technology and Data industrial experience and 1+ year of research experience. Passionate about applying ML techniques to solve real-world problems. Skilled in machine learning, problem-solving, and programming. Primary interests in Large Language Model generation and dialogue systems. Currently working on the problem of LLMs text generation for palliative care interventions.

RESEARCH INTEREST

Data Science, Large Language Models, HCI, Machine Learning, Artificial Intelligence

EDUCATION

Master of Science in Informatics, Data Sciences Concentration 2025
The Pennsylvania State University, University Park, PA
Thesis: Exploring the Role of ChatGPT in Enhancing Palliative Care for Sleep-Wake Disturbances

Bachelor of Arts in Public Art 2019
Sichuan Fine Arts Institute, Chongqing, China

AWARDS

The National Encouragement Scholarship, Sichuan Fine Arts Institute Aug 2017

PUBLICATIONS

Master's thesis research Feb 2024 – Present
Exploring the Role of ChatGPT in Enhancing Palliative Care for Sleep-Wake Disturbances
Siqi Liu, Ling Qiu, and Saeed Abdullah

- Conducted at the Wellbeing & Health Innovation Lab, leveraging interdisciplinary methodologies to enhance generative AI in healthcare.
- In preparation for submission to the SIGCHI Conference.
- Focuses on the innovative application of ChatGPT-4o, in generating tailored, personalized intervention messages for patients with sleep-wake disturbances within the palliative care domain.
- Highlights the potential of AI to bridge communication gaps between healthcare providers and patients while addressing emotional and clinical needs.

PROFESSIONAL AND RESEARCH EXPERIENCE

Graduate Research Assistant, Advisors: Prof. Saeed Abdullah Feb 2024 – Present
Wellbeing & Health Innovation Lab, University Park, PA
Generative AI in Enhancing Palliative Care

- Participated in ongoing research projects.
- Conducted statistical data analysis and comprehensive literature reviews to support research objectives.
- Authored detailed analyses and contributed to the preparation of research work for publication.

- Collaborated on submitting a peer-reviewed article, ensuring adherence to academic standards.

Student Librarian

Feb 2016 – Jun 2019

Sichuan Fine Arts Institute Library of Huxi, Chongqing, China

- Conducted workshops and provided guidance on research methodologies, citation practices, and digital tools, enhancing users' academic and professional skills.
- Curated and organized specialized events, ensuring resources were readily accessible and aligned with users' research needs.
- Assisted researchers and students in accessing, analyzing, and utilizing academic resources to support projects, fostering informed and creative outcomes.

CERTIFICATIONS

Graduate School Teaching Certificate & Graduate Online Teaching Certificate, University Park, PA

TEACHING EXPERIENCE

Teaching Assistant, The Pennsylvania State University, Graduate

IST 242 - Intermediate and Object-Oriented Application Development

Aug 2024 – Dec 2024

- Provided 36 students one-on-one and group assistance to students, clarifying object-oriented programming concepts, debugging code, and guiding them through project development.
- Conducted Office Hours, offering hands-on support for Java programming exercises and ensuring students adhered to best practices.
- Evaluated and provided constructive feedback on assignments and projects, ensuring alignment with course objectives and promoting coding proficiency.

INDUSTRY EXPERIENCE

Marketing Analyst, Buffalo Intelligent Rehabilitation, Chengdu

Sep 2021 – May 2023

- Collaborated with 3 software engineers and 1 project manager to improve the performance of the Intelligent tracking rehabilitation platform for Wuhan TCM hospital – generated \$70,000 in revenue by the end of 2021
- Developed visually impactful dashboards in Excel and Tableau to identify key metrics and transform raw data into meaningful, actionable information for the software engineers
- Delivered an interactive, real-time Management Information System (MIS) report in Excel to highlight key trends and metrics for products – to support senior management in assessing the market feedback and help them make faster decision-making
- Designed research tools such as questionnaires, focus groups, and interview schedules to collect information on the market field

Market Analysis Assistant, Shangpin Expert Culture Communication, Chengdu Feb 2020 – Aug 2021

- Applied expertise in data analysis and visualization to understand how our users interact with our online sales platform – to demonstrate user preference
- Built reports, dashboards, and metrics to monitor the performance of each livestream
- Collected and cleaned data in Excel, and prepared a weekly summary for my direct supervisor
- Implemented a new reporting system using Excel Pivot tables and VBA which helped to reduce processing time by 50%

OTHER WORK EXPERIENCE

Class President, Office of Student Services, Sichuan Fine Arts Institute
Student Employee, Waring Commons, The Pennsylvania State University

Sep. 2015 – Jun. 2019
Oct. 2023 – Present

TECHNICAL SKILLS

Python, Numpy, Scikit-learn, Matplotlib, Java, MATLAB, R, SQL(SQL Server, MySQL), Tableau, PowerBI, HTML, Microsoft Azure

SELECTED COURSEWORK

Data Analytics,
Data visualization,
Applied Statistics,
Data Mining,
Machine Learning
Human-Computer Interaction,
Application Development (Java)
Computer-Supported Cooperative Work
